EXPERIENCE

SM Investments Corporation June 2026 – October 2026
Cyber Security Analyst Intern

- Protected corporate identity and brand integrity, preventing potential credential stuffing attacks, by continuously monitoring deep-web intelligence in Cyberint.
- Protected corporate users from credential harvesting and malware delivery, successfully containing phishing email threats, by analyzing headers, payloads, and malicious links to remediate "Phishing Email" campaigns via Microsoft Defender.
- Reduced threat actor dwell time and mitigated credential theft risks, through the rapid identification, behavioral analysis, and remediation of "Account Compromise" escalations using Trend Micro.

State Properties Corporation **J**uly 2025 – August 2025
Management Information System Intern

- Enhanced cross-platform user experience and reduced rendering latency, by engineering responsive web components and interactive data visualizations utilizing ASP.NET MVC 5, Bootstrap 4.6, and C#.
- Accelerated enterprise platform performance by designing, normalizing, and optimizing complex relational database schemas and data pipelines within SQL Server.
- Streamlined development workflows and reduced deployment integration conflicts to zero, by managing the full project lifecycle through a centralized Git repository with structured branching, merging, and rigorous code review protocols.

SKILLS

- **Software Development:** JavaScript (ES6+), HTML5, CSS3 (Tailwind CSS), ReactJS, C#, ASP.NET MVC 5, JQuery, C++, Python.
- **Cybersecurity & Cloud:** Trend Micro, Microsoft Defender and Azure Active Directory, Cyberint (Check Point), Cloudflare, Graylog.
- **Databases & Dev Tools:** SQL (MySQL, Microsoft SQL Server), Git/GitHub, Visual Studio, Oracle VM VirtualBox.
- **Hardware Engineering:** AutoCAD, Autodesk Fusion, Intel Quartus Prime, Arduino IDE, Flowgorithm, Digital Logic Design, IoT.
- **Soft:** Threat Investigation, Problem Solving, Cross-Functional Collaboration, Analytical Thinking, Project Management, Pressure Management.

PROJECTS

- **Website Portfolio** | *HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, and Three.js*
  - Developed a project repository, demonstrating expertise in frontend architecture and systems design by integrating interactive elements into a comprehensive professional showcase.
- **Global Observer** | *HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Three.js, WebGL, and GSAP*
  - Engineered an interactive 3D global event monitor that visualizes real-time natural disasters via NASA's EONET API with dynamic data filtering and navigation to provide users with satellite-level detail and seamless rendering.
- **AetherWeather** | *HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Three.js, WebGL, and Vercel*
  - Built an interactive 3D real-time weather dashboard and integrated the OpenWeatherMap API for live telemetry data and deployed the high-performance rendering environment via Vercel.

CERTIFICATES

CCNA: Switching, Routing, and Wireless Essentials November 2026
Cisco Networking Academy

DFIR Foundations and Techniques October 2026
Blue Cape Security

CCNA: Enterprise Networking Security and Automation July 2026
Cisco Networking Academy

IBM Cybersecurity Analyst July 2026
Coursera

CCNA: Introduction to Networks February 2026
Cisco Networking Academy

EDUCATION

Bachelor of Science in Computer Engineering 2023 – 2027
Polytechnic University of the Philippines | Sta. Mesa, Manila
